After being made redundant from my previous role, I decided to switch careers and retrain as a Front-End Developer. I have just completed a coding bootcamp with SheCodes, and I am passionate about building responsive, accessible and user-friendly websites and applications. I am eager to apply and expand my technical experience in a dynamic, collaborative environment. With a background in English language teaching, editing and assessment, I am excited to combine my people skills and passion for helping people with my new-found technical abilities.

EMPLOYMENT HISTORY

GM • Remote • November 2023 - Present Junior Front-End Developer
